

Cambridge IGCSE and A Level Syllabi Bundle

Prepared from official Cambridge International syllabus pages and PDFs.

- Cambridge International was used as the exam board assumption.
- A Level Mathematics is one syllabus (9709). Pure Mathematics, Mechanics and Statistics are route options inside that syllabus, so the same official PDF is included under all three A Level maths labels.
- At IGCSE level, Cambridge does not offer separate stand-alone syllabi titled Mechanics and Statistics in the same way. I included IGCSE Mathematics (0580) and IGCSE Additional Mathematics (0606) as the closest Cambridge matches.
- Cambridge states that IGCSE Business Studies (0450) changes to Cambridge IGCSE Business (0264) from first assessment March 2027.
- Cambridge states that the newer A Level French syllabus is code 9898, replacing 9716.
